TH

SUMMARY

I am a passionate software developer with a focus on full-stack web development, having hands-on experience in various programming languages and frameworks. My internships have provided me with a solid foundation in both front-end and back-end development, and I've successfully completed multiple projects showcasing my ability to integrate complex functionalities. I thrive in collaborative environments and enjoy mentoring others

EXPERIENCE

01/2023 - 02/2023
Noida
